Privatisation of Power Plants in Rajasthan and Orissa

7889. SHRI RAMDAS AGARWAL: Will the Minister of POWER be pleased to state:

(a) whether Government have any proposal for privatisation of power plants in Rajasthan and Orissa;

(b) if so, the details thereof;

(c) the exact stage at which the proposal stands; and

(d) the reasons for the privatisation of these power plants in those States?

THE MINISTER OF STATE IN THE MINISTRY OF POWER (SHRIMATI URMILABEN CHIMANBHAI PATEL): (a) and (b) Government of Rajasthan and Orissa do not have any proposal for privatisation of existing operating power plant. However, as per the information available with the Ministry of Power, 13 and 25 power projects are proposed to be set up in the private sector in the States of Rajasthan and Orissa respectively. The details of the projects are given in the enclosed Statement (*See* below).

(c) The projects are at various stages of obtaining necessary statutory and non-statutory clearances.

(d) In view of the paucity of resources in the public sector, a policy to encourage greater private sector partisipation in power generation, supply and distribution has been initiated in 1991 and is currently under implementation. In tune with the policy, most of the State Governments including Government of Rajasthan and Orissa have entrusted power projects for execution in the private sector.
